**Subject:** Fwd: Draft Statement on Anaconda

It's ok not to address Carson river in a statement.

But we may need to address it in any subsequent interview b

Thanks Angeles. I don't think we should address the Carson River concerns raised in the letter in a statement to media at this point.

The EPA received the Governor's letter and will address the concerns raised. The EPA remains committed to the complete cleanup of the Anaconda site and supports the state's request for more time to determine if an alternative to listing can be achieved by working with the local stakeholders to develop an appropriate and complete cleanup plan.

**Subject:** Re: Draft Statement on Anaconda

Should we include that we are evaluating the letter and will respond?

The letter raised some concerns that we need to public address specially the Carson River mine.

Please excuse my typos

Hi all, I spoke to my counterpart at NDEP, she told me that they haven't gotten any calls yet. The Governor's director of communications is supposed to be sending the letter to media and that may or may not include a statement from the governor. When that goes out we will be alerted by NDEP.

Here's a first stab:

The EPA remains committed to the complete cleanup of the Anaconda site and supports the state's request for more time to determine if an alternative to listing can be achieved by working with the local stakeholders to develop an appropriate and complete cleanup plan.
